# Innovative technologies for Agribusiness

Nutritional supplements,  
Quick quality assessment  
Strips & other processing  
technologies/products

## Dairy

High yielding & disease  
resistant cultivars,  
Micronutrient formulations,  
Plant protection protocols,  
Post harvest & processed value  
added products

## Horticulture

Vaccines & diagnostic kits for  
disease detection,  
Nutritional feeds,  
Processing & artificial  
insemination technologies

## Animal Husbandry

High-tech equipment,  
Planters, Harvesters,  
Ripening chamber, Insect  
trap system, Compost  
mixtures, Green houses etc.

## Agriculture Engineering

एग्रिनोवेट इंडिया लिमिटेड

## Fisheries

Fish production & quality  
management technologies,  
Fish disease diagnostic kits,  
Fish feed technologies

## Crop Science

High yielding & disease resistant  
cultivars, Diagnostic kits,  
Nutrient uptake, Production,  
Harvesting & processing  
technologies

## Biotechnological processes & products

Gene & vector sequences,  
Gene & gene constructs,  
Molecular markers etc.

## Bio Based Agri Inputs

Bio-formulations, Bio-  
fertilizers, Bio-pesticides,  
Bio-fungicides, Growth  
regulators & Microbial waste  
treatment technologies

## Our Associations

& even more.....

## About - Agrinnovate

Agrinnovate India Ltd. (AgIn), a Government of India Enterprise incorporated in October 2011, a company owned by Department of Agricultural Research & Education (DARE), Ministry of Agriculture & Farmers' Welfare.

The company acts as an effective interface between Indian Council of Agricultural Research (ICAR) on one side and the stakeholders of agricultural sector, public & private sector firms, R&D organizations, educational institutions & farmers (national and international) on the other side, for the primary purpose of securing, sustaining and promoting technology based entrepreneurial ventures in agriculture & allied sectors.
